

APPLICATION MANAGER – VEOLIA BELGIUM

Veolia as a reference company for ecological transformation. At Veolia we implement solutions for water- waist-, and power management which contributes to the sustainable development of cities and the industry. To improve our company we are looking for a suitable Application manager.

Function description

- You will have to contribute to solutions architecture's orientation and choices
- You are going to be managing, organizing and coaching the functional analysts and developer's team.
- You are responsible for executing and improving core ITIL processes, mainly Incident, Problem, Change, configuration and Release Management.
- You are responsible for Strategic sourcing of the team respecting the IT Sourcing Strategy.
- Managing the application landscape availability through the Keep It Running (KIR) activities.
- Contributing to the evolution of the application landscape in collaboration with the Solution Architect by proposing evolution or application renewal.
- Aligning with the Business IT relays on application change and project to be launched 1
- Troubleshoot and resolve any problems with business applications by providing 2nd and 3rd line support.

Profile

- Experience: You have at least 5 years of experience in a similar position. You are experienced with Project Delivery Methodology (PMI, Prince 2 or equivalent). You have experience with AGILE Delivery, in Application Delivery Lifecycle and with programming languages (C#, .NET...). You also have to be skilled in application release and configuration management, AWS and GCP and in managing projects and monitoring deadlines. You have demonstrated experience in testing V-Model and testing methodology.
- Certificates: You have a Bachelor Degree or a Master's Degree. Proven experience in Business Process Management, Functional Analysis and Design thinking
- Values: You are an excellent communicator, a dynamic solution driven person and a natural born team leader. You like working in an international environment. You can work autonomous, but you work well in a team. You work accurately and in a structured manner, you are analytical and you can plan well.
- Languages: You have to be able to speak Dutch, English and French.

Offer
