

DEMANDING RESPONSE MARKET ANALYST

- VEOLIA BELGIUM

Veolia as a reference company for ecological transformation. At Veolia we implement solutions for water- waist-, and power management which contributes to the sustainable development of cities and the industry. To improve our team at Flexity we are looking for a suitable Demanding Response Market Analyst.

Function description

- Based upon the data that you will receive and taking into account the current market conditions.
- You will calculate the flexible power potential of industrial customers.
- You work closely with a Technical Account Manager within the team, who is in direct contact with the customer.
- You translate the detailed studies into an easily understandable proposal for the customer.
- Your communication skills (written and oral) are just as important as your analytical skills.
- You will be involved in the day-to-day valorisation of Flexcity's portfolio on the reserve markets.
- You will contribute to the strategic bids and calculate the settlements for the industrial clients. In doing so, you scrupulously apply the rules of the system operator Elia and take into account the market conditions (imbalance prices, etc).
- You will have to assess the flexibility characteristics of the installations.
- Based on the flexibility characteristics and our current portfolio, evaluate the value that the sites could add to the portfolio.
- Together with the technical account manager, draw up technical proposals for new and existing clients and provide technical support.
- You offer client support and communicate directly with our clients

Profile

- Experience: A good knowledge of the Belgian energy market or a profound interest in this topic is therefore a must.
- Certificates: You have a master's degree, preferably in engineering.
- Values: You have strong analytical skills. You are customer oriented: you think from the customer's perspective. You have a proactive approach and strong sense of responsibility. You are flexible, not afraid to think outside the box and you love to share your knowledge. Technical interest in new technologies and passion for energy are a must. You are results-oriented with a pragmatic and professional attitude. You are a team player with a "can do" mentality. Strong written and oral communication skills, both internally and externally
- Languages: Fluent in English and Dutch or French. Any other language is a plus.

Offer

Veolia team:

You will be working in an enthusiastic team within an informal company culture. We create a sense of community through team events

Innovation:

Taking into account your expertise and experience we offer you room for innovation. We encourage (inter)national mobility and flexible working hours.

Salary Package:

Besides a competitive salary you will also receive extra legal advantages such as meal vouchers, group- and hospitalization insurance, a company car and 15 compensatory days.

Interested? Send your resume to jobs.be@veolia.com. Hope to see you soon!
