

PROJECT ENGINEER WATER – VEOLIA BELGIUM

Veolia as a reference company for ecological transformation. At Veolia we implement solutions for water- waist-, and power management which contributes to the sustainable development of cities and the industry. To improve our company we are looking for a suitable Project Engineer.

Function description

- You will work within the DTP organization (Direction Technique & Performance) in the department “Technics Water” you will participate to the development of the water operations within Belux. Following tasks will be requested :
 - To read and analyze RFQs
 - To calculate O&M costs (including getting offers from suppliers)
 - To build and write O&M offers
 - To support existing water related operation contracts by solving trouble-shootings
 - To support the commercial team in the development of water activities

Profile

- Experience: Knowledge / demonstrated experience of at least 5 years, as project engineer, related to water services. This implies that you have practical experience in water treatment for process purposes, as well as in the treatment of wastewater. You can calculate Opex costs, as well as (smaller) Capex projects, and can help in the setting up of the proposal towards clients. Can both execute engineering work, as well as optimize operational activities on site.
- Certificates: Master in Engineering, or equivalent through experience
- Values: Pragmatism and capacity to think out of the box. Technical-pragmatic applied creativity (result oriented problem solver, pragmatic & down-to-earth, effective & efficient, practical, eye for detail, develops solutions from in-depth detailed understanding, capacity for priority setting, analytical abilities). Clear and transparent communication skills. Good organization, planning & coordination ability.
- Languages: You have to be able to speak fluent English and French. (Dutch language is considered as an asset).

Offer

Innovation

Taking into account your expertise and experience we offer you room for innovation.

Salary Package

Besides a competitive salary you will also receive extra legal advantages such as meal vouchers, group- and hospitalization insurance, a company car and 15 compensatory days.
